1/1200th SCALE SAILING SHIPS

Navwar's range of 1/1200th scale sailing ships now covers conflicts in the East, as the Elizabethan era, the American War of Independence, The Seven Years War, The War of Spanish Succession, all three of the Dutch Wars and the Napoleonic Period. It should be remembered that precise details of the ships becomes more difficult to obtain the earlier you go back. Few 18th Century vessels, nominally in the same class, were built to exactly the same plans, and with refits and rebuilds, vessels which started out as near sisters, could often end their lives looking very different. This is even truer for the Tudor era where scholars continue to argue about details of individual ships. Paintings of ships of the period are often described as different vessels by different authors. Navwar continues to choose models that are typical of a particular class or type at a particular date, rather than provide ranges of near identical half sisters. The division of the range into "Napoleonic & American Independence", "Dutch Wars to Seven Years War" & "Armada" is purely arbitrary and vessels from either side of the divide may be used together.

ANCIENT GALLEYS

\$4.50 per pack
